Review of Results & Operations

As will be seen from the financial statements, the Company recorded an after tax profit of \$435,623 for the half year to 31 December 2008.

This profit was recorded on sales of \$1,396,772 and after charges of \$121,599 for amortisation and depreciation.

As stated in the Company's market release of 19 November 2008, this is lower than expected by the Company and is entirely due to the current world economic conditions which have had a curtailment of stock market and corporate activity, which in turn have had an effect on the Company's operating revenue.

The Company's principal activity during this period has been the provision of share registry and related services to companies listed on the ASX and other unlisted entities.

The directors are confident that even with current business conditions 2009 will continue to be profitable for the Company and that the overall business model will remain satisfactory.

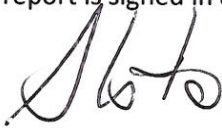

Dividends

The Company has proposed an interim dividend of 1 cent per share fully franked to be paid from the profits recorded in this period.

Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration under Section 307C of the Corporations Act 2001 is set out on page 5 for the half year ended 31 December 2008.

This report is signed in accordance with a resolution of the Board of Directors.

NOTES TO FINANCIAL STATEMENTS

For the half year ended 31 December 2008

1) Basis of preparation of half year financial report

The half year financial statements are a general purpose financial report prepared in accordance with the requirements of the *Corporations Act 2001*, Australian Accounting Standard AASB 134: Interim Financial Reporting, Australian Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 30 June 2008 and any public announcements made by the Company during the half-year in accordance with continuous disclosure requirements arising under the *Corporations Act 2001*.

The accounting policies have been consistently applied by the entity in the consolidated group and are consistent with those in the June 08 financial report.

The half-year report does not include full disclosure of the type normally included in an annual financial report.

There are no comparatives for the half year ended 31 December 2007 as the Company did not trade in the corresponding period ending 31 December 2007.

Reporting Basis and Conventions

The half-year report has been prepared on an accruals basis and it based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

Significant Accounting Policies

These condensed interim financial statements have been prepared in accordance with the accounting policies adopted in the last annual financial statements for the year ended 30 June 2008.

The following applicable standards have been issued but have not been early adopted:

- AASB 101: *Presentation of Financial Statements* (Revised 2007)
- AASB 8: *Operating Segments*

AASB 101 (Revised 2007) makes certain changes to the format and titles of the primary financial statements and to the presentation of some items within these statements. It also gives rise to additional disclosures. The measurement and recognition of the Company's assets, liabilities, income and expenses is unchanged. AASB 101 affects the presentation of owner changes in equity and introduces a "Statement of comprehensive income". Further, a "Statement of changes in equity" is now presented as a primary statement.

AASB 8 now reports segment results based on internal management reporting information that is regularly reviewed by the chief operating decision maker. In the previous annual and interim financial statements, segments were identified by reference to the dominant source and nature of the Company's risks and returns. This may result in a different set of segments being identified than those previously disclosed under AASB 114.

Significant accounting judgments and key estimates

The presentation of interim financial reports requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this half-year, the significant judgments made by management in applying the entity's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial report for the year ended 30 June 2008.
